

XURYA
revolutionizing energy

YOUR ONE STOP SOLUTION

FOR SOLAR ENERGY

Company Profile

Financing Options

No upfront cost, immediate savings, floating rate

Engineering Design

Feasibility study, engineering design customized for your building, accurate energy production prediction

Installation

Component procurement, project management, quality control, commissioning, permit application

Operations & Maintenances

24/7 real time monitoring, quarterly maintenance

One-Stop Solution for Your **Solar** **Energy** Needs

Xurya, as Indonesia's leader in distributed solar power, has been trusted by hundreds of **commercial and industry** building owners to have **rooftop solar**.

We provide financing options, engineering design, installation, as well as operations & maintenance services across Indonesia.

Pioneer of

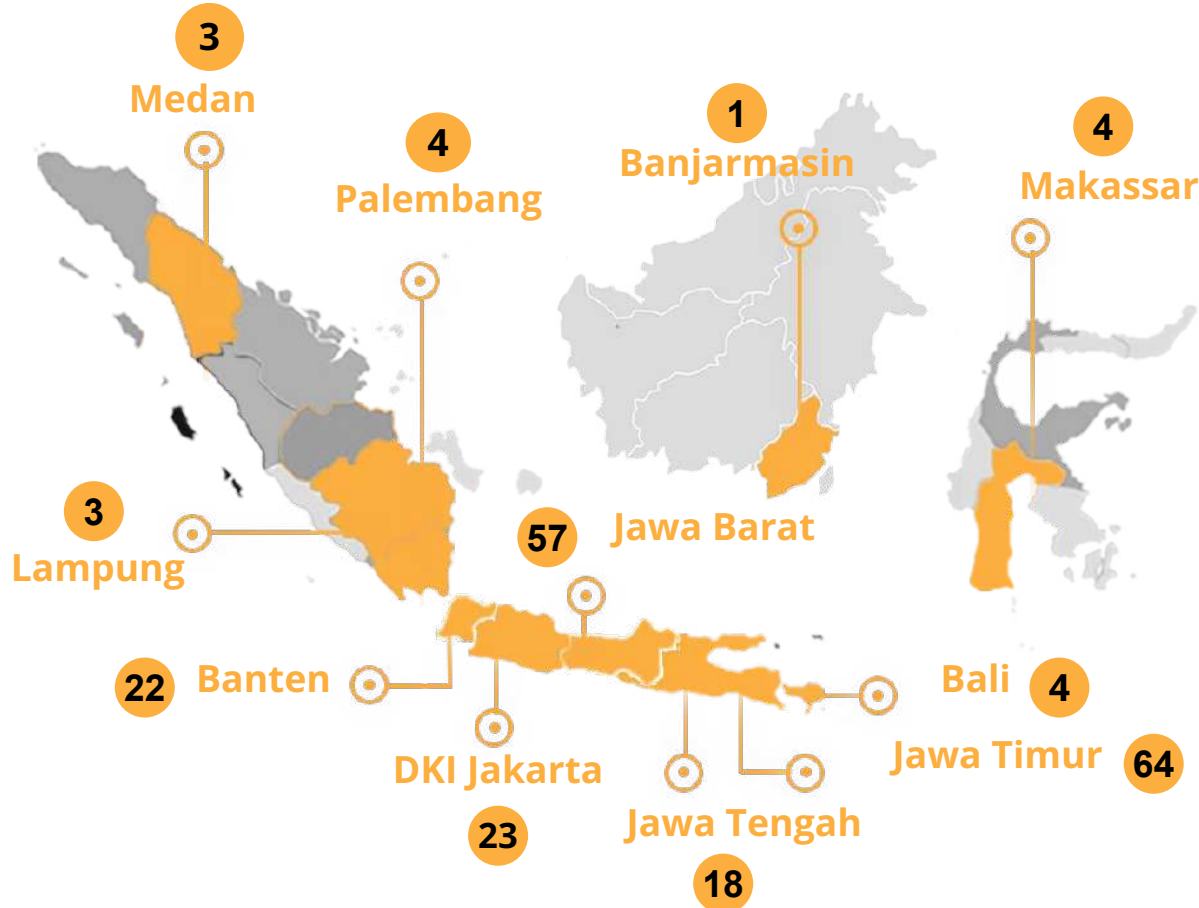

Rp

0,-

Investment

From 2018, Xurya help companies in Indonesia
to use solar energy **without investment.**

Xurya's Project

165 in operation

38 in construction

**Per January 2024*

Trans Studio Mall

DKI Jakarta, West Java, South Sulawesi

5.2 MWp

Trans Shopping Mall Group Inaugurates the
Largest Rooftop Solar on top of Mall
with Xurya

November 2023

PT Sariguna Primatirta Tbk

More than 15 locations across Indonesia!

4 MWp

CLEO has the **Most Number of Rooftop Solar Installed on Multiple Plants** throughout Indonesia

May 2023

Ceramic Companies Going Green

- No upfront investment
- More than 20 years contract
- 24/7 Operations
- 4x regular maintenance services per year

PT Pan Brothers Tbk

Central Java

1.4 MWp

PT Apparel One Indonesia

Central Java

489 kWp

Textile & Garment Companies Going Green

Saves operational cost

Value add for export to Europe and
USA

Commercial Buildings Going Green

Minimizes the impact of electricity
rate hikes

Get a Green Building Certificate

PT Unicharm Indonesia Tbk
West Java & East Java
12 MWp

Multinational Companies Going Green

Kimberly-Clark Softex
East Java
635 kWp

PT Heinz ABC Indonesia
East Java
405 kWp

2019

Plaza Indonesia trusted Xurya with their first rooftop solar installation.

2023

Plaza Indonesia added their rooftop solar capacity, creating more green impact with Xurya.

2019

MGM Bosco trusted Xurya with their first rooftop solar installation in Central Java.

2021

MGM Bosco added rooftop solar at more cold storage locations with Xurya.

2023

In progress: MGM Bosco Bekasi

Understanding **On-Grid** Solar System

Solar Modules
Capture solar energy

Solar Inverter
Convert solar energy to
AC electrical power

Zero Export System
Prevent electricity backflow
to the grid unless permitted

Grid
Seamlessly provides
electricity when solar
power is not enough

Battery
Stores the solar energy until
you are ready to use it, such
as at night, during blackout,
or at peak tariff period

**Building
Consumption**

Electricity
used in your
building

**Smart IoT
Monitoring System**
Record solar production,
system status, and notify
problems to users

**Elevate Your
Business with
Solar Energy for a
Sustainable
Future**

Top quality service

ISO 9001:2015
ISO 14001:2015
ISO 45001:2018

Distinguished awards

Top 10 Infratech Solution 2023
Asian Infrastructure Investment Bank

100 Companies to Watch
Construction & Engineering
Forbes Asia 2023

**Top Startup Green
& Renewable Energy**
G20 Digital Innovation Network

Best C&I Project Award
by Huawei Indonesia

100% of our operating solar projects have successfully secured the permits!

Official Member & Partner of

Our commitment is to provide the comprehensive solution of solar energy:
we also take care of the entire **end-to-end permit** acquisition process on your behalf

Our Technical Specification	Specification	Warranty	Brand
Panel	<ul style="list-style-type: none"> Tier 1 (540/545 Wp) Monocrystalline modules, Dimension: 2279 X 1134 X 35 mm Weight: 28.6kg Efficiency: 20.7-21.1% 	<ul style="list-style-type: none"> Product warranty: 12 years Performance warranty: 25 years. 	   
Inverter	<ul style="list-style-type: none"> 12 Inputs with 6 MPP Trackers @98.7% efficiency. Fuse free design with integrated DC/AC Surge Arrester 	<ul style="list-style-type: none"> Product warranty: 10 years. Extendable up to 20 years. 	    
DC Cable	<ul style="list-style-type: none"> Halogen-free and flame-retardant. IP68 protection rating Weather/UV-resistant -40°C to +105°C 	<ul style="list-style-type: none"> Functionality: 25 years. Product: 1 year. 	 
AC Cable	<ul style="list-style-type: none"> Multi core power and control cable. Insulated cable fire-retardant. 	<ul style="list-style-type: none"> Functionality: 25 years. Product: 1 year. 	  
Mounting	<ul style="list-style-type: none"> Anodized aluminum for corrosion resistant installation. Pre-assembled for easy & quick installation. Adjustable to rooftop type. 	<ul style="list-style-type: none"> Functionality: 25 years. Product: 10 years. 	  
Junction Box	<ul style="list-style-type: none"> IP65 protection rating. Tier 1 protection device provider. 	<ul style="list-style-type: none"> Functionality: 25 years. Product: 1 year. 	  
Monitoring & Sensors	<ul style="list-style-type: none"> Monitor up to 2000 kwp. Plug and play installation. Web-based monitoring system Sensor box measure irradiation, wind speed, and ambient temperature 	<ul style="list-style-type: none"> Functionality: 25 years. Product: 2 years. 	  

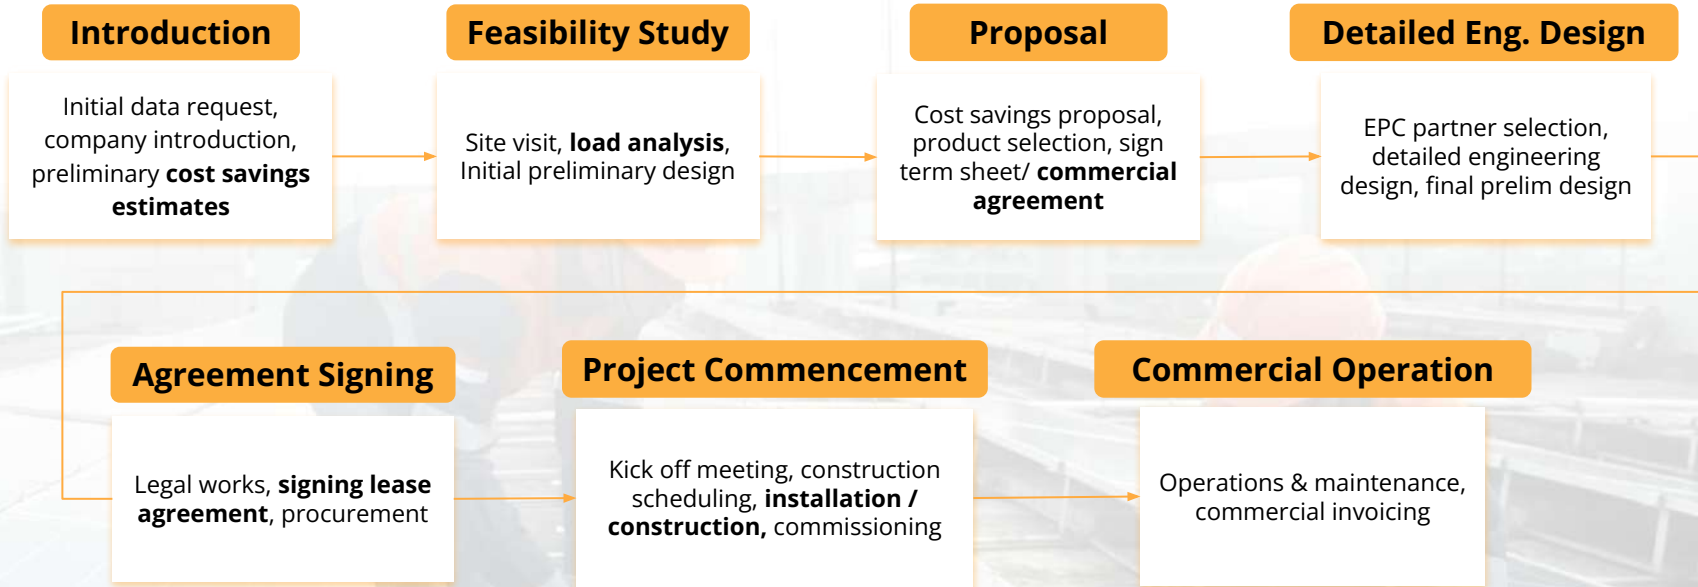

Typical Project Timeline

No	Description	Duration	I				II				III				IV				V				Remarks
			1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	1	2	3	4	
1	Installation Contract																						
2	Survey and Design	2 wks																					
3	Procurement																						
	Balance of System	4 wks																					
	Solar Panel	8 wks																					
	Inverter	8 wks																					
4	Material Delivery																						
	Balance of System	1 wks																					
	Solar Panel	2 wks																					
	Inverter *	2 wks																					
5	Installation **																						
	Mounting and Structure	8 wks																					
	Solar Panel	8 wks																					
	Cables	4 wks																					
	LV Electrical / Distribution Panel	2 wks																					
	Inverter	2 wks																					
	Grounding	2 wks																					
6	Test and Commissioning	1 wks																					

*Procurement time depends on material availability and customs processes

** Installation time depends on weather, Electrical termination to service panel depends on building schedule (~1 day)

We assist your journey towards sustainability

Xurya's Contribution

Shown In Environmental & Social Terms (per January 2024)

1. CO2 emissions of 0.894kg/kWh according to ESDM 2016 report <http://ebtke.esdm.go.id/post/2016/01/22/1086/proyek.emisi.karbon>
2. 19.1 jobs per MWp installed, <https://www.freeingenergy.com/facts/jobs-solar-installation-residential-utility-g207/>
3. Trees equivalent based on figures from EPA <https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator>
4. Average Indonesian homes electricity consumption of 1462kWh per year <https://web.pln.co.id/statics/uploads/2018/07/PLN-Statistics-2017-English.pdf>

Commitment to **Human** Improvement

In-house trainings, seminar contributors, training programs with vocational schools, and with EPC's across Indonesia
