

YOUR ONE STOP SOLUTION FOR SOLAR ENERGY NEEDS

NO INVESTMENT | FREE MAINTENANCE

Customers only pay monthly lease, lower than electricity bill.

We install and manage the Solar Rooftop system

Guaranteed Cost Savings

How **solar modules provides energy** for your factory/facility?

CAPTURING SOLAR ENERGY

Solar modules absorb the sun's energy and convert it to DC electricity

INVERTING SOLAR ENERGY TO ELECTRICITY

The solar inverter converts DC electricity from your solar modules to AC electricity, which is used by most home appliances

DIVIDES AN ELECTRICAL POWER FEED

A distribution box divides an electrical power feed into subsidiary circuits, while providing a protective fuse or circuit breaker for each circuit in a common enclosure

CALCULATE THE ENERGY

The photovoltaic data logger calculates the energy yield and several other parameters (electricity, voltage, at working point) with very high accuracy

PROVIDING ENERGY

Electricity flows through your home, powering electronic devices
